*"They sowed fields and planted vineyards that yielded a fruitful harvest."
Psalm 107:37 NIV*

Return Objective

The long-term goal of the Harvest Fund is to exceed the sum of 4.0% annual spending, inflation (Consumer Price Index), and fees.

HF Benchmark: 50% Stocks (MSCI ACWI), 50% Bonds (Bloomberg US Aggregate)

Spending Policy: 4.0% Annual Draw plus CPI (Consumer Price Index)

Risk Control

We expect the overall volatility to be less than the benchmark, and this is achieved by diversifying among many different asset managers and asset types. One of our core principles is downside protection, so care is taken to hire managers appropriately.
